

NONTOXIC CLEANING AND DISINFECTING PRODUCTS

MORTONTM PRO Salt-Based Solutions

2024 COMMERCIAL CATALOG

MORTON™ PRO BATHROOM CLEANER

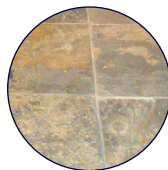

WHY WE MADE THIS

Avoid the heavy fumes and potential skin irritation of traditional bathroom cleaners. This bathroom cleaner is nontoxic and safe to use. There is no PPE needed as this salt-based cleaner uses electrolyzed salt and water and leaves behind a soft lemon scent.

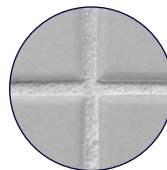

BEST FOR USE ON:

MORTON™ PRO DEGREASER

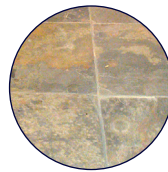

WHY WE MADE THIS

Typical degreasers fill nostrils with a strong chemical smell. This nontoxic degreaser is specially formulated to cling to tough animal and plant fatty acids while being free of harsh chemicals because it is salt based. No PPE or special ventilation is needed to remove non-baked on grease and grime.

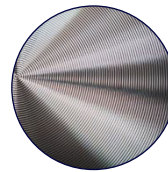

BEST FOR USE ON:

MORTON™ PRO FLOOR & CARPET CLEANER

WHY WE MADE THIS

Inevitably someone spills on hardwood or carpet and you need to clean it up. But why settle for toxic cleaners that stay embedded in the fabrics and off-gas harmful fumes over time? This floor and carpet cleaner uses non-toxic salt-based chemistry to effectively clean while leaving behind no harmful chemicals or fragrances. This cleaner is safe for people and pets and can be used on all hard and soft flooring.

BEST FOR USE ON:

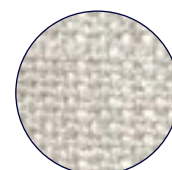

**SEALED
STONE**

**SEALED

TILE

CARPET

USE IN:

Office buildings, restaurants, healthcare facilities, retail stores, schools, stadiums, and manufacturing facilities.

*The Floor & Carpet product breaks down animal and plant-based dirt, fats and oil. It DOES NOT break down polymer-based products, so it won't degrade finished floors. Try it in an inconspicuous area if you or the customer are concerned.

MORTON™ PRO EPA DEODORIZING DISINFECTANT & SANITIZER

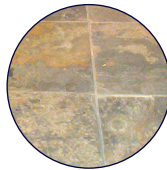

WHY WE MADE THIS

Why does disinfecting have to mean bleach or ammonia? This nontoxic EPA Registered sanitizer and disinfectant is effective in killing most harmful germs and bacteria including C-diff., Norovirus, and Sars-COV-2. Imagine killing germs and bacteria while patients are comfortable in their hospital beds or in their assisted living facilities without having to disrupt them.
